APPLICATIONS

CORODUR® 620 ES CHROMIUM AND NICKEL FREE
TO ENSURE A SAFE WELDING ENVIRONMENT.

Cr VI- emissions is always a task when using of Flux core wires. CORODUR has developed **620 ES** which provides a superb welding performance with a zero level of chromium as well as nickel. This is to avoid dangerous and hazardous emissions by welding.

CORODUR® 620 ES provides a crack-free deposit combined with excellent properties of resistance to abrasion and impact.

CORODUR® 620 ES is a metal powder flux cored wire which provides a pretty weld bead appearance and a hardness of around 600 HB.

Save your welding environment and try our NEW CORODUR® 620 ES.
